According to ABC News, the latest dump of Hillary Clinton's emails released by the State Department reveals that the Democrat presidential frontrunner asked to borrow a book that contained tips on how to permanently [delete your emails](#):

The last batch of Hillary Clinton emails released by the State Department included one from Clinton asking to borrow a book called "Send: Why People Email So Badly and How to Do It Better," by David Shipley and Will Schwalbe. ...

Take, for example, Chapter Six: "The Email That Can Land You In Jail." The chapter includes a section entitled "How to Delete Something So It Stays Deleted."

"Some people are hoarders, some are checkers," the authors write. "The main thing to consider is that once you do decide to delete, it's like taking the garbage from your kitchen and putting it in your hallway. It's still there."

While Secretary of State, Clinton violated government regulations by not only using a private email account for all of her government work, she also used a secret server stored in her New York home. Clinton then deleted more than 30,000 emails claiming they were all personal.

The FBI is now in control of the server.
